## **PATENTS (2019)**

[1] Oancea, A.M., Bahrim, G.E., Vasile, A.M., Râpeanu, G, Stănciuc, N. Fermented dairy products functionalized by the addition of microencapsulated composites based on anthocyanins extracts from sour cherries by-products. Republica Moldova, 2112/10.04.2019.

## **PATENTS (2018)**

[2] Alexe, P., Stoica, M., Dima, C. Process for obtaining a powder pigment based on carboxyhemoglobin (COHb) for the use in the preparation of common meat products. A/01105/13.02.2018

[3] Alexe, P., Stoica, M., Dima, C. Process for obtaining a powder pigment, based on nitrosohemoglobin (NOHb), for the use in the preparation of common meat products. A/01102/13.02.2018

[4] Borda, D., Bleoancă, I., Popa, A.G., Chirilă, A.M., Popa, C. Process for obtaining ice cream from concentrated whey and fruits. A00820/22.10.2018.

[5] Cercel F., Alexe P., Stoiu M. Eedible films based on myofibrillar proteins in complex rheological systems. A00343/2018

[6] Condurache, N.N., Bahrim, G.E., Râpeanu, G., Stănciuc, N. Microencapsulated ingredients based on anthocyanin extracts from eggplant skins and bioactive peptides from whey proteins with high functionality for food industry. A25042/5.10./2018.

[7] Dima, C., Stoica, M., Alexe, P. Obtaining a liquid natural pigment based on nitrosohemoglobin (II). A/01104/13.02.2018

[8] Milea, A.S., Mihalcea, L., Bahrim, G.E., Râpeanu, G., Stănciuc, N. Microencapsulated ingredients based on flavonoid extracts from yellow onion skins and bioactive peptides from whey proteins with high functionality for food industry. A30564/27.11.2018

[9] Patrascu L., Aprodu I., Vasilean I., Neculau M. Spreadable Vegetable product and process for preparing the same. RO131180-A0 2016-393347.

[10] Patrașcu L., Vasilean I., Aprodu I. Process for obtaining a fermented product from germinated legumes and the product thus obtained. A00314/08.05.2018

[11] Stoica, M., Alexe, P., Dima, C. Sea buckthorn and blood-based pigment to reduce residual nitrite for the meat industry. A/00352/18.05.2018

[12] Stoica, M., Alexe, P., Mihalcea, L., Dima, C. Pork parizer with sea buckthorn, without nitrite. A/00353/18.05.2018

[13] Stoica, M., Dima, C., Alexe, P. Obtaining a liquid natural pigment based on nitrosohemoglobin (I). A/01103/13.02.2018

## PATENTS (2017)

- [14] Carmen BOLEA, Camelia VIZIREANU, Romulus Marian BURLUC, Daniela Ionela ISTRATI. Dough composition for agglutenic appetizer biscuits. A/00158/ 15.03.2017.
- [15] Florentina URSCAHE, Nicoleta STĂNCIUC, Elisabeta BOTEZ, Doina ANDRONOIU, Oana NISTOR, Mihaela TURTURICĂ, Gabriela RÂPEANU. Desert dairy product based on whey protein concentrate and white sea buckthorn and production technology. A/00045/2017.
- [16] Florentina URSCAHE, Nicoleta STĂNCIUC, Elisabeta BOTEZ, Doina ANDRONOIU, Oana NISTOR, Loredana DUMITRAȘCU Gabriela RÂPEANU. Muffins with sea buckthorn extract microencapsulated in whey protein and technology thereof. A/00509/2017.
- [17] Floricel CERCEL, Petru ALEXE, Mariana STROIU. Obtaining edible/biodegradable films from myofibrillar proteins. A/00242/2017.
- [18] Liliana MIHALCEA, Maricica STOICA, Cristian DIMA, Petru ALEXE. Pork parizer with sea buckthorn groats without added nitrite. A/01169 / 22.12.2017.
- [19] Livia PATRAȘCU, Iuliana APRODU, Ina VASILEAN, Iuliana BANU. Process for obtaining a sparkling soy fermented beverage and the products obtained. A 00164/20.03.2017.
- [20] Nicoleta STĂNCIUC, Liliana MIHALCEA, Gabriela RÂPEANU. Appetizing biscuits with sea buckthorn extract obtained by extraction with supercritical fluids and appetizing biscuits with sea buckthorn extract micro-encapsulated in whey proteins and technologies for their production. A/00289/2017.
